SUPER-DREADNAUGHT FLORIDA LAUNCHED QUEEN OF OCEANS

GALA NAVY FETE HONORS VESSEL

Daughter of Florida Ex-Governor Christens, Greatest of All Warships at the Navy Yard Today

TOWERS OVER CONNECTICUT

Makes Our Former Leviathan Look Like Rowboat when Compared at Every Angle

OUTCLASSES ALL FOREIGNERS

England's Boasted Battleships Are Not in Class with New American Built Arbitrator of War

Until the launching of the Florida, the Connecticut was regarded as one of the best vessels in the American navy. Compared with the latest monster she becomes a "has been."

NEW YORK, May 12.—America's greatest battleship, the superdreadnaught Florida, most massive all-big-gun ship in the world was launched at the government navy yard in Brooklyn at 11:28 o'clock this morning.

As the signal cut off sent the big vessel down the ways into the water of Wallabout Bay Miss Elizabeth Legere Fleming, daughter of a former governor of Florida, crashed a bottle of wine against the prow and shouted, "I christen thee Florida."

A great throng filled the navy yard, while the entire waterfront on the New York side was jammed. All craft had been barred from that portion of the East River, for the great wave of water that was cast up by the 21,000 ton battleship would have sunk an ordinary vessel.

The navy yard was in gala attire. Ships and buildings were elaborately decorated while bands from the battle fleet in the harbor were stationed about the yard. Thousands of jacks lined the docks and ships in the vicinity, while hundreds of naval officers, in full dress uniform, added brilliancy to the scene. Fully thirty thousand people were in the navy yard to witness the launching.

Two great platforms had been erected at the bow of the vessel to accommodate the 500 invited guests. On the principal stand were Secretary of the Navy Geo. Von L. Meyer, Assistant Secretary Winthrop, A. W. Gilchrist, governor of Florida, with his staff; Gov. Hughes and Rear Admirals Evans, Sperry, Schroeder, Wainwright, Potter and Leutzi.

Vice-President Sherman was present at the launching as the official representative of President Taft.

Outclasses Rivals
Neither the Neptune nor the Colossus, prides of the British navy, equals the latest sea fighter. The Florida can fire a broadside of five tons of metal. She can train every one of her ten 12-inch guns on either broadside and hurl twice as much metal as the entire fleet. Admiral Dewey took into Manila Bay. The Florida will be 21 feet longer, 3,500 tons heavier and with a battery of 24 per cent stronger than the giant Bellerophon, of the British navy. The great Connecticut, for years queen of the American navy will seem small alongside her. The Florida will be heavier by 5,000 tons than the Connecticut, or nearly the entire displacement of the ill-fated Maine.

Too Big For Dock
The Florida is 521 feet long—too long for the navy yard dock—and for that reason her propeller, rudder and propeller shaft, together with a large part of her armor had to be installed before she took the water. She has 85 feet beam and will be as steady as a fort. Her displacement is 21,825 tons. She is said to develop 28,000 horsepower, which will drive her along at the rate of 21 knots an hour.

Is Torpedo Proof
The Florida will carry sufficient thick armor to make her proof against torpedo boat attack but will have strong bulkheads as additional safeguards against torpedoes and mines.

BAKERS FINED \$1.00

Bakers Schaeffer and Ruplin were arraigned in police court today and fined \$1.00 each for selling underweight bread.

THE LADY AND THE MONSTER OF THE SEA

Uncle Sam's New Dreadnaught, the Florida, Which Was Launched today, And Miss Elizabeth Fleming, Daughter of Ex-Governor Fleming of Florida, Who Christened the Boat.

OLD GIANT BUT A PYGMY NOW

The Florida and the "old" Connecticut, once pride of the American navy:

Vessel	Length	Displacement	H. P.	Speed
Connecticut	450 feet	10,000 tons	16,500	19 knots
Florida	521 feet	21,825 tons	28,000	21 knots

ARMAMENT

Connecticut—Four 12 inch guns in two turrets, eight 8 inch, twelve 7 inch, twenty 3 inch rapid fire, four 1 pounders, two 3 inch field guns and four .30 calibre automatic riot guns.

Florida—Ten 12 inch in five turrets; sixteen 5 inch rapid fire on broadside; four 3 pounder semi-automatic, two 1 pounder semi-automatic, two 3 inch field guns and two .30 calibre automatic riot guns.

TUBES

Connecticut—Bunker capacity, 2,325 tons; torpedo, four submerged 1 inch diameter; complement, 41 officers, 840 men.

Florida—Bunker capacity, 2,500 tons; torpedo, two submerged 1 inch diameter; complement, 60 officers, 854 men.

INSURGENTS ARE ALLIES OF TAFT

Progressives Aid Chief and Regulars Fight Him on Tariff Board; Tawney a Grand-stander

WASHINGTON, D. C., May 12.—Rock-ribbed regular republicans, "insurgers" against an administration measure with President Taft and the republican insurgents lined up behind it was the anomalous situation presented today when the sundry civil appropriation bill appeared for debate in the house with the president's provision for an appropriation of 250,000 for a tariff investigation among its contents.

While a squad of regulars, led by Tawney, (R. Minn.), chairman of the house appropriation committee which framed the bill, is supporting the measure, aided by the insurgents, the eastern high tariff clique is fighting the measure. The secret of the strange lineup is that the high protection regulars led by Payne believe the tariff board appropriation is nothing less than the old tariff commission idea advanced by Senator Beveridge. They fear that if the scheme goes through the Payne-Aldrich tariff law may be revised within two or three years. And they do not want their handiwork "marred." Tawney's stand is regarded as a play to the galleries to rehabilitate himself in his resentful Winona district.

Payne Begins Fight
Representative Seno Payne (R., N. Y.), co-author with Senator Aldrich of the tariff law, today told the house that he considers the bill a boon to all consumers and that any further study of the subject is unnecessary. He opposed the appropriation in the sundry civil bill, asked by the president, for a tariff investigation. He said the increased production of gold is responsible for the high cost of living. Representative Payne then launched into an elaborate technical defense of the tariff.

LABOR MUST VOTE RIGHT SAYS STONE

Support Men, Not Parties; Women Should Be Given the Ballot to Protect Rights

DETROIT, Mich., May 12.—Grand Chief Stone of the Brotherhood of Locomotive Engineers is in right with the grand international auxiliary (the woman's branch) and all the local women's organizations today as the result of his speech at last night's formal opening of the biennial convention of the big organization, in which he said:

"I am in favor of woman suffrage. I believe the women are entitled to the ballot to protect their interests and I am sure they will not make a bigger botch of it than the men do."

Another of Stone's statements which met great applause was his recommendation that labor give greater attention to politics. "We try to get our members to vote for the man instead of the party," he said, "and when the man fails to deliver the goods to turn him out irrespective of party. In the future organized labor must look largely to legislation. At the present time 72 per cent of the votes cast are by wage earners and our safety lies in teaching them to vote intelligently."

A "GOOD FELLOW" DIES.

NEW YORK, May 12.—Florence Hyneman, hit of "The Social Whirl," died in Flower hospital today after taking poison Tuesday afternoon when refused a theatrical engagement which she had counted on. She left a note in her room, reading: "Don't put in the papers where the body was found. Please make the closing number a brevity. If you are a good fellow you will do as a good fellow asks."

GLAVIS LAWYER AT LAST SMOKES WICKERSHAM OUT

Letter Read Before Ballinger Committee Admits Glavis Summary was an Afterthought

PROMISES A NEW SENSATION

Brandeis Now Proposes to Show Alleged Taft-Wickersham Meeting on 11th Never Occurred

WICKERSHAM TO TAKE STAND

Nelson Says that Request of Brandeis for His Appearance will Be Granted Later

WASHINGTON, D. C., May 12.—Attorney General Wickersham, in a letter read from the witness stand today by Secretary Ballinger, admitted that his "summary" of the Glavis charges upon which it has been supposed President Taft based his decision was written after Taft's letter and was ante-dated.

The letter was in answer to a call upon the department of justice for all the paper used in the preparation of the "summary." In part Wickersham said:

"This summary was necessarily made up afterward and properly bears the date of the day when the matter in question was presented to the president."

He Explains It

"There is no mystery about the matter and nothing which may not be fully stated, but due regard for the constitutional authority of the executive forbids that the action of the president and his advisors shall be called into question by a co-ordinate branch of the government."

Wickersham said that the summary was merely a formal compilation of data which he submitted to the president on Sept. 11 so that, in fact, the ante-dating was immaterial.

Stories Don't Meet

Brandeis today made the assertion that he is preparing to show that Wickersham was in New York on Sept. 11, while President Taft was in Beverly. Wickersham, Brandeis claims, did not see the president until the 12th and then only for a few minutes after church. He did not confer with the president until Sept. 13, Brandeis claims, two days after the date of the summary.

The assertions, coupled with the announcement that Wickersham will appear as a witness gave prospect of new sensational situations in the near future.

Puts Taft in Ananias Club

Attorney Brandeis said the significance of the attorney general's admission that he ante-dated the summary is in the fact that the president intended that this summary was before him when he arrived at his decision on the Glavis charges.

On December 21, 1909, the senate adopted a resolution calling upon the president to transmit "any reports, statements, papers, or documents upon which he acted in reaching his conclusion with reference to the said charges."

Replying to this President Taft in a communication dated January 6, 1910, included among the papers "summary by the attorney general dated of September 11 and separate report to the president from the attorney general under same date."

Wickersham to Testify

Wickersham was requested today by Attorney Brandeis to testify before the Ballinger investigation committee. Attorneys Vertrees said the "defense" would welcome the appearance of the attorney general. Chairman Nelson informally stated that Wickersham would appear. This action followed reference to the testimony of Former Attorney General of Porto Rico Hoyt, upon the circumstances leading to his taking up with Wickersham the Pierce decision on the Cunningham claims. Ballinger characterized the remarks of Hoyt as "vastly exaggerated."

"You mean they are untrue?" asked Brandeis.

"Yes," replied Ballinger. Representative James reminded Ballinger that he was accusing Hoyt of perjury. Ballinger then modified his statement against Hoyt, saying that all he did mean was that "Hoyt had placed a wrong color on his story and had exaggerated it."

The Copy is Missing
Senator Nelson announced that the interior department had notified him that no copy of the Oscar Lawler memorandum, sought by "Prosecuting Attorney" Brandeis, is in possession of that department.

The committee agreed Tuesday to ask for a copy of the statement which was sent to the president before he issued his letter exonerating Ballinger. The committee, however, refused to ask the president for the original.

When Ballinger resumed the stand today he produced a decision of the

CONFESSION LED TO INDICTMENT

J. C. Beckemeyer, whose confession to the effect that he, too, received from Lee O'Neill Browne money which influenced his vote in the recent election of United States Senator William Lorimer, formed the second admission of the facts related by A. White, and led to the indictment of Browne and others.

CAN'T CALL HYDE NAMES IN SPEECH

Prosecutor Stopped when Word "Murderous" Is Used and Told to Avoid Epithets

KANSAS CITY, Mo., May 12.—Dr. B. C. Hyde, whose trial for the alleged murder of Col. Thomas H. Swope is drawing to a close, was again favored by a ruling of Judge Latshaw today, when the latter warned the prosecutor not to use approbrious adjectives in his speech.

Assistant State's Attorney Henry Jost, in the opening argument last night said: "When this defendant laid his murderous hands upon the medicine," he was interrupted by an objection from the defense.

Judge Latshaw instructed the jury to disregard the term "murderous" and reprimanded the prosecutor.

Before court convened today the prosecutors received notice from the court that offensive and prejudicial epithets could not be applied to the defendant in arguments for conviction.

The court has characterized all the evidence as circumstantial and ordered the jury to either convict in the first degree or acquit. If they find the physician guilty, a death penalty or life sentence must be inflicted. By the court's order, the state's first argument was a summary of the entire case.

Attorney Walsh dealt with the "immense significance given to trivial circumstances in a case of circumstantial evidence," and called attention to Mrs. Swope's dislike for Dr. Hyde.

When he asked: "How many men are today languishing in prison who were unjustly convicted on false circumstantial evidence?" Juror W. C. Kohn, whose son is now in the penitentiary convicted of homicide on circumstantial evidence, placed his handkerchief to his eyes.

TELLS OF FALL OF 300 FEET FROM SKY

GLASGOW, Ky., May 12.—A. Holland Forbes, aeronaut, who is fast recovering, today told further details of the experience of himself and J. Carrington Yates in the balloon Viking.

"At an elevation of 15,000 feet Tuesday morning, we went through our first snow storm," he said. "We made a record at 2 o'clock in the afternoon when we reached an altitude of 20,000, higher by 2,000 feet than any record in America. "Everything went well until we descended to a few hundred feet above the ground, when the appendix line broke loose from the ring supporting the basket. The rigging collapsed and dropped with the basket, at a height of 300 feet. I cannot describe the sensation of that 300 foot drop to the ground."

WOMEN GET BUSY

CINCINNATI, Ohio, May 12.—The real work of the tenth biennial meeting of the General Federation of Women's clubs began at Music Hall today. Committee reports occupied most of the morning session, while the afternoon session consumed the afternoon at the Art Museum in Eden Park.

Mrs. Rufus P. Williams of the civics department will preside at the night session.

A MATTER OF PRECEDENCE

LONDON, May 12.—Just what position Special Envoy Roosevelt will have in the funeral procession of King Edward has not been determined. It is assumed that he will be grouped with the representatives of other nations not represented by royalty, such as France, and those whose rulers are not in attendance such as Russia and Turkey.

THIRTEEN DROWN WHEN BIG STEAMER SALTILLO GOES DOWN AT ST. LOUIS

GERMAN STUDENTS HEAR ROOSEVELT

Germany's Part in "The World Movement" Elicits Applause; Throat Is Improved

(By a Staff Correspondent of the United Press.)

BERLIN, May 12.—Before a distinguished audience at the University of Berlin today, Col. Roosevelt delivered the third of his European lectures on "The World Movement."

The Kaiser, Crown Prince Wilhelm, Chancellor Von Bethmann-Hollweg, Foreign Minister Von Schoen, most of the other ministers and many of the ranks of German royalty, were in attendance, the audience being probably the most distinguished ever addressed by a foreign lecturer.

The address was a critical study of the growth and spread of civilization in Europe with particular reference to Germany's part in the movement. It was not what could be called a popular lecture, being too analytical and furnishing the colonel but few opportunities for his well known style of oratory.

The greatest need of civilization today, he declared, were the homely, every day virtues, the power of organization and a high religious spirit "as the things of the spirit are even more important than the things of the body."

Bright sunshine and warm weather came to the aid of Col. Roosevelt today and did more toward "straightening out" his throat than all of the treatment he has undergone.

Emperor William today presented Roosevelt with four large water colors, illustrating the changes in the German army uniform since 1650.

Roosevelt added a number of extemporaneous remarks to his address, mostly of a humorous nature. The Kaiser joined in the applause. For thirty minutes following the lecture and the conferring of an honorary degree upon Roosevelt, he was the center of a group of royalty and notable educators.

COMMISSION IS AT ISSUE WITH COURT

WASHINGTON, D. C., May 12.—Reaffirming his decision that "elevator allowances" granted by railroads to some grain shippers are illegal, the interstate commerce commission today took direct issue with the United States court for the western division of the western district of Missouri. The commission declared that the court had no right to overrule a decision of the commission based upon an "investigation and finding of facts." The case was that of H. Gund & Company of Nebraska against the C. B. & Q. railroad.

ESTRADA IN EXTREMIS

BLUEFIELD, Va. Wireless to Colon, May 12.—Three Madriz armies are now within striking distance of Bluefields and officers commanding today sent demands for the surrender of the city to Provisional President Estrada.

Americans in Bluefields are terrified as an attack is expected at any time. Estrada's army is believed to be too weak to make a successful fight.

FIND HOOK WORM CURE

ROSELAND, La., May 12.—Two young daughters of Emile Topor of Roseland are the first to respond successfully to treatment started here by physicians in the war that has been waged on the hook worm, and thirty others in Roseland are now being treated in the same way.

JURY GETS HEINZE CASE

NEW YORK, May 12.—The fate of Fritz Augustus Heinze, on trial for alleged misapplication of the funds of the Mercantile National Bank of which he was president in 1907, and over-certification of checks of Otto Heinze and Company, will rest with the jury at 6 o'clock tonight.

ROAD IS PROSPEROUS

LOUISVILLE, Ky., May 12.—The Louisville & Nashville railroad earnings show an increase for the first week of May of \$146,030. Since July 1 the increase over the previous year is \$5,426,079.

TAFT NOT ILL

WASHINGTON, D. C., May 12.—"I am just as sound in health and ready for work as I ever was," is the way President Taft today denied the report that he was ill.

TERRIBLE FATE OF RIVER VESSEL

Swift Current Hurls Boat from Course and Sinks Her, a Mass of Wreckage

DISOBEDIENCE WAS FATAL

Most of Those Lost Crowded Onto Gangplank Despite the Warnings of Officers and Crew

ST. LOUIS, Mo., May 12.—Thirteen persons were drowned when the steamer City of Saltillo sank in the Mississippi river near Glen Park, 24 miles from St. Louis, at 9:30 Wednesday night. It was first thought that not more than four or five had drowned but a search during the night and early today revealed that thirteen had drowned. Most of the crew escaped.

Twelve bodies are still in the river today. Mrs. Isaac Rhea was dragged from the waters unconscious and soon after expired. The others have not been recovered.

Among the dead are five women passengers and eight men.

Official's Wife Victim

The Saltillo was bound from St. Louis to Tennessee river points and struck a rock and foundered within reach of the shore at Glen Park. The steamer turned turtle after striking the rock and was pointing up stream when she finally foundered. Many of the passengers were pleasure seekers from Nashville, Tenn.

The dead: Mrs. Isaac T. Rhea, Nashville, Tenn., wife of the president of the Tennessee River Packet company, owners of the ill fated vessel.

Anna Rhea, 2 year old daughter of Mrs. Rhea, Nashville, Tenn.

S. C. Baker, first clerk of the steamer, St. Louis.

Mrs. Joseph Harris, Nashville, Tenn.

Mrs. Archie Patterson, Nashville, Tenn., returning from a visit with parents at Chester, Ill.

Archie Patterson, Jr., five, son of Mrs. Patterson.

William J. Pickett, traveling salesman, St. Louis.

Fowler Post, clerk on boat, St. Louis.

Miss Lena Wall, Nashville, Tenn., member Rhea party.

Leo Collins (colored), cabin boy.

Dan Hogan (colored), rooustabout.

Two rooustabouts, names not known.

Voyage Dangerous

The City of Saltillo was in charge of Captain Perry Crane and left St. Louis at 7 o'clock last night. On board were twenty-seven passengers and a crew of twenty-three men. The voyage was considered precarious because of the high water and the great amount of driftwood floating in the river.

Current Overpowers Her

Shortly before reaching Glen Park the boat began to show a strong shoreward tendency. The draw was fought frantically by the pilot but she continued to drift and finally the engines were reversed in an effort to overcome the pull. The Saltillo continued to swing inshore in spite of the reversed engines and the rudder having been thrown hard over.

Almost on Shore

As the boat swung toward the shore with increasing force, she turned.

Use TIZ- Smaller Feet

Sore Feet, Tender Feet and Swollen Feet Cured Every Time. TIZ Makes Sore Feet Well No Matter What Ails Them

Everyone who is troubled with sore, sweaty, or tender feet—swollen feet, smelly feet, corns, callouses or bunions can quickly make their feet well now. Here is instant relief and a lasting permanent remedy—it's called TIZ. TIZ makes sore feet well and swollen feet are quickly reduced to their natural size. Thousands of ladies have been able to wear shoes a full size smaller with perfect comfort.

It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely clog up the pores. TIZ cleanses them out and keeps them clean. It works right off. You will feel better the very first time it's used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. TIZ is for sale at all druggists, 25 cents per box or direct if you wish from Walter Luth-Dodge & Co., Dept. 489, Dodge Bldg., Chicago, Ill.

CONCERT COMPANY AT HIGH SCHOOL

Roney's Boys Concert Company, which comes here May 28 under the auspices of the high school athletic association, will give two shows, a matinee for school children and an evening performance. Both shows will be held in the high school auditorium. Reserved seats for the evening performance will be on sale at several of the downtown stores.

This company is a very fine troupe according to everybody who has heard them. There are five boys and a man in the company; and they both sing and play instruments of different kinds. It is hoped that a large crowd will be on hand to hear the troupe, as everyone is certain to be amply repaid by hearing one of the best concert companies now out.

DANGER OF COMET NEXT WEDNESDAY

Next Wednesday will occur the event to which the scientists are looking forward—the passing of the earth through the tail of Halley's comet. Scientists say that there will be no danger to life, but there will be an electrical disturbance, which will affect most adversely the wireless telegraph systems. The comet is now 37,000,000 miles away from the earth and is becoming brighter every day, the peacock tail showing as a long, thin

LORD KELVIN WAS MYSTIFIED BY HER

Miss Annie Abbott, who is puzzling everybody with her act at the Majestic theater this week appeared recently before Lord Kelvin, the famous English scientist, at his request, to see if it was possible for him to ascertain what her mysterious power is.

"I gave the Lord an opportunity to lift me and he like the rest failed in the attempt," said Miss Abbott today. "He called my power a phase of electricity which has not yet been classified. He admitted that it had him guessing."

"I have appeared before most of the scientific bodies of any consequence in the world and they are all guessing. I have also appeared before the majority of rulers of note, many of whom have given me tokens of appreciation, some of

which I have with me." She then showed the reporter magnificent rings presented to her by the late King Edward of England, the present King George, Czar Nicholas of Russia and others.

"I had my picture taken with the late Queen Victoria and have one of them with me. It is a much prized souvenir."

"Down in South Africa, I had the late Oom Paul Kruger on the stage trying to lift me. General Cronje and others who became famous in the Boer war also tried it."

"My power is an odd one; I do not feel anything at the time myself and it gives me no pain if someone grabs me too tight or if I am scratched in the tussle. When the flesh contact is over I have just as much feeling as any one. I discovered my power when seven years old. I am the only one in the family who has it and as far as I know, none of my

ancestors had it. I haven't any idea what the power is. You know as much about it as I do. Oom Paul called it witch craft."

BUILD NEW CATHOLIC SCHOOL AT TOMAH

TOMAH, Wis., May 12.—The old Catholic school building has been torn down and is now nothing but ruins. Construction on the new building is to begin immediately, and a school which will cost when completed, with heating and plumbing, \$11,000, will be built. The contract has been let to Messrs. Farley of New Lisbon and Blackburn of this city, who were joint bidders on the job.

The railroad company is erecting two new standpipes, one in the east end of the yard and one in the west.

A large brick addition is being added to the back of the Malloy building in which the Central Hardware company is located. The old tin-covered addition has been moved aside and brick are being laid for the new one. This will extend the store to the alley. A cellar is being dug underneath.

Brick laying has started on the new Hellmann Bakery building on the lot just south of Wolf's department store.

Mr. Ulrich P. Koenig has purchased the south lot of Mrs. Sarah D. Palmer, and expects to erect a building there. Mrs. Palmer has moved the house which was on that lot away.

Fred Waltman is building a large new house on North Kilbourne avenue. The Tomah Manufacturing company has the contract.

Mrs. Robert McMullen of Seattle, Wash., is visiting with relatives in Tomah.

Mr. and Mrs. Ole Moe of La Crosse have been visiting with the family of C. H. Kellogg.

Wm. Gleiss was home from Milwaukee last week.

F. H. Robinson was a recent Bangor visitor.

J. O. Paulson was down from Sparta Monday.

Miss Ellen Clay, teacher in the Bangor public schools, visited with friends and relatives here lately.

Miss Clara Glenn of Viroqua visited with the family of W. E. Nuzum a few days last week.

Mrs. Rockwood, Mrs. Vincent and Mrs. Cassels will serve a coffee with Mrs. Carrie King Friday afternoon.

MRS. ERICKSON THE FIRST LADY FAN

Mrs. George Erickson, was the first lady to pass through the turn stile at the League park yesterday, securing the handsome waist which Greene's Limited offered for the first lady fan of the season.

THE 1910 MOTTO

La Crosse won yesterday. That's fine!

But La Crosse isn't going to win every day, remember that.

La Crosse broke into league ball under pampering conditions. It started with a pennant team, and it won the pennant two years out of the first three.

That leads a public, not used to the vicissitudes of baseball, to expect too much. If the team isn't at the top, it is N. G.

Listen. There are ups and downs in baseball, control of which is beyond human clutch. The "cussedness" of inanimate things" has no better exemplification than is furnished by the inconsistent conduct of the little horse-hide sphere. A bad bound costs a game, and a bad bound may come every day for days. Teams not only go stale and have off days, but they have bad luck, and bad luck at times has chronic persistency. There is the story of the gambler who "had bad luck for six months and then it turned around and got worse." All this to show that baseball is a speculation as well as a science and that the best planned games "gang aft agley."

Here is the fact La Crosse fans should accept as the basis for their attitude toward the home team. ANY TEAM THAT CAN STAY IN THE FIRST DIVISION IS DELIVERING THE GOODS. We want our team to win, and WE BELIEVE OUR TEAM WILL WIN. But the rule for 1910 is this: If we are in the first division our team is making good. Cheer the boys. Every little rooster helps. Take a little pride in the fact that La Crosse team ever finished out-

side the first division. Let the feeling be in the air that we are all fans and that the fans are with President Rooney and the directors and Manager Safford and the whole dinged-busted team.

THE FIGHT IN IOWA
People who have delighted to class Senator La Follette an anarchist because he went into the field and beat Babcock and Jenkins and other Wisconsin congressmen of whom it may be said that they represented big interests and misrepresented their constituency, must have found their jaws dropping yesterday when they read of Senators Cummins and Dolliver, speaking to 10,000 republicans from every corner of Iowa, telling these men to go home and defeat four Iowa congressmen because they have harked not to the voice from home but have obeyed the beck of Aldrich and Cannon.

But that is just what happened. Moreover, Senator La Follette never in his life dealt with the stand-patters with more relentless severity than was displayed by Senator Cummins in his castigation of the monopolistic ring that has made the president a puppet and ruled and ruined in the national congress.

Senator Dolliver confined himself quite closely to the tariff bill passed by the Aldrich-Payne crowd and stamped by the president as the "best ever" tariff law. He showed it to be fuller of inequities and inequities than ever was charged, that it revised up for the consumer and down for the monopolist. Following are some pertinent paragraphs chopped out of the Iowa's analysis of the new tariff law:

"The new rates and classifications in the cotton schedule operate to increase duties very materially on most cotton cloths used for women's and children's summer wear, and on all mercerized cottons, figured curtain and upholstery goods, tapes, cords, etc. In fact, the Aldrich revision of this schedule was one of the most daringly iniquitous features of the new tariff."

"The refusal of Aldrich to permit a proper revision of the wool and woollen schedule, with its excessive rates upon the necessities of life, the consumption value of which amounts to over \$700,000,000 per year, was without doubt the worst feature of Payne-Aldrich tariff legislation."

"The silk schedule, which advanced rates on goods the value of which was \$166,742,646 and decreased on only \$7,947,568, was defended on the ground that all were 'luxuries,' and yet they are now commonly used by almost every girl and woman in the land in some form or other, for dresses, shirtwaists, undershirts, and hats, and for men's and boys' neckties, and suit linings, and by most people are no longer considered 'luxuries.'"

"There is the item of bituminous coal, amounting to \$322,344,733, of which we export seven times more than we import, and on which the remarkable reduction of 22 cents per ton was made—for the benefit only of the Atlantic seaboard manufacturers, who may thereby get their coal a little cheaper from Nova Scotia."

"Duties on hides were removed and decreased on leather, for the benefit of the New England boot and shoe manufacturers. We export some sixty times more of these manufactures than we import, and manufacture more cheaply than any other country. The manufacturers admitted they needed no duty at all."

"The production of agricultural implements is largely in the hands of a trust, and the trifling reduction of five per cent on these products was merely for the purpose of attempting to fool the farming community."

"So far as the public is concerned, the tariff revision in fact carries rates as high, or higher, than the Dingley tariff law on most articles of general use in their finished condition. Most of the reductions were so trivial as to be ridiculous, and were either upon articles which we do not import to any extent (but, on the contrary, export in enormous quantities) or were for the purpose of further protecting the manufacturers especially, by reducing the duties on raw materials, while most of the rates on finished products were either kept at the Dingley tariff standard or were increased."

The insurgent fight in Iowa has been begun, and it must have conveyed in Washington the fact that the progressives are to be the aggressors, seeking and giving no quarter. Iowa is all same Wisconsin.

The Tories are planning a state convention. We predict there will be no "rump," for progressive republicans will hardly recognize a meeting of that sort.

Superior is the first community to get busy with a half-breed organization looking to the control of the legislature. It is a timely move, and the other districts should up and at 'em.

A man naturally has a grudge against the man who was once engaged to his wife—and didn't marry her.

Quips and Cranks and Wanton Wiles

Slow but Sure
"Fly with me!" her lover pleaded. As he pressed her to elope; But his wishes went unheeded. For she calmly answered: "Nope! Not while 'aeros,' as at present. Are so apt to plunge and balk; But," said she, "the weather's pleasant. Don't you think we'd better walk?"

The Victim
Senator Boise Penrose, at a dinner in Philadelphia, said of April fool jokes:

"An amusing joke was played on a Phoenixville democrat by a Wissahickon republican one April night. 'The two men had been to the theater together. The democrat, on the train ride home, fell asleep. He and his friend, together with one very brawny stranger, were the sole occupants of the smoker."

"The Wissahickon man, as his station drew near, remembered that it was April 1, and he bent over the brawny stranger and whispered: 'Excuse me, sir, but my friend asleep here is slightly off his base—hot dangerous, or violent—but not all there, you know.'"

"I see," said the stranger, in an interested tone. "Now, he's got a ticket for Phoenixville, went on the other. He used to live at Phoenixville. But his real destination is Norristown; he is in one of the non-violent wards there; a keeper in uniform will be waiting for him on the Norristown platform. Would you be so kind as to put him off?"

"Why, certainly," said the stranger. "He'll probably object," said the false friend. "He'll show his Phoenixville ticket, and all that. But you look like a sturdy, muscular—"

"Oh, I'll put him off all right," said the stranger, smiling. "Then the train stopped and the Wissahickon man departed softly, without bidding his sleeping Phoenixville companion good-bye."

"At Norristown the stranger seized the sleeper by the collar and jerked him violently to his feet."

"Here you are crazy!" he said, running him down the aisle. "Hop off, now, quick!"

"Are you crazy?" cried the Phoenixville man, holding back by clutching at the seats. "Phoenixville is my station. What are you interfering with me for, anyhow?"

"Off you go!" grunted the stranger, getting his victim out on the platform."

"But I tell you I live at Phoenixville!"

"Oh, yes, we all know about that."

"They struggled, and the stranger as the train was about to start, put forth all his strength and hurled the Phoenixville man onto the station platform. He landed on his right shoulder."

"A station attendant in uniform bounded up with a lantern. He bent over the groaning, cursing Phoenixville man, and the stranger, as the train steamed out, shouted from the window:

"Take care of him, keeper. I had the very deuce of a job to chuck him off."—Washington Star.

New Story of Whistler

Appropos of the approaching exhibition of the works of Whistler at the Metropolitan Museum of Art, William Laurel Harris, a well known mural painter of this city, stands for a new story of him who was known as "The Only One."
"It was at a gathering of painters," said Mr. Harris, "and the talk turned upon Impressionism, or, at least, Whistler turned his talk in that direction and the others listened. There was in the company an artist who was notoriously impetuous, for he was constantly borrowing small change."

"When I look at the sun," said he, "and then turn away I see blue and red spots the size of dollars all over the landscape."
"My dear fellow," drawled Whistler, "are you quite sure you don't see half dollars?"

The Ruling Instinct

"Hold, man! What would you do?"
"I would die! From this bridge I will leap into you mighty torrent and end it all—all!"
"Heavens! But if you must, wait twenty minutes until I can send for my moving picture machine; this will make a corking film."—St. Paul Dispatch.

European Skin Specialist Says Dandruff is Caused by Parasites

Upon that theory, proved beyond a doubt, a cure for dandruff was sought after. Scientists, chemists, druggists and physicians all "took a hand" and the successful issue is the present product known as "Newbro's Herpicide."

This remedy actually kills the parasites that infest the hair bulb, does its work most effective and contains not an atom of substance injurious to anything else than the germ alone. Herpicide causes the hair to grow as nature intended it should, soft and abundant.

VIRGINIA OF THE AIR LANES.

BY HERBERT QUICK
COPYRIGHT BY ROSS-MERRILL CO.

Suddenly into Shayne's den burst Silberberg, his face red, his whole being shimmering hot. Shayne faced him and asked fairly what the devil the matter was.

"I'm done with you!" spluttered Silberberg. "Get me away" from here, if you're a gentleman!"

"If I wasn't I'd have you kicked off!" said Shayne. "You can't jump on me, if you are my guest. I'll—"

"There are other women in the world!" cried Silberberg. "I—"

"She refused you, then?"

"In a way I can't stand," protested Silberberg, with hands upflung. "She said I was disgusting! I can't stay!"

"Well," answered Shayne, "the Roc sails at once."

"It's risky, in the face of the injunction—"

"Damn the injunction!" shouted Shayne. "If you're afraid, stay with the servants!"

The rest were at the garage before Silberberg; Mrs. Shayne in the cabin, Virginia and Shayne in animated debate on the platform.

"Well," Shayne was saying to her, "stay, then, like a simpleton! But how are you to get away? I don't know how long the courts will keep this up—and our running the injunction won't make it any shorter!"

"It's blowing awfully!" said Silberberg.

Nobody noticed him but the pilot.

"I know it, sir," said he. "It's foolhardy to take this gas-bag out. It's as apt to mean the Atlantic as anything. There's a nor'west gale at Sackett's Harbor, and no chance to make Temagami. I don't like it, if you ask me!"

"Shayne," said Silberberg, "the pilot says it's not fit to go out!"

"Then stay!" answered Shayne. "You're welcome to the house."

"But, Shayne," cried Silberberg, "it may mean getting whirled out to sea or—"

"Out to sea!" sneered Shayne. "And the wind southeast! Stay if you're afraid! Virginia, Mr. Silberberg's going to stay with you!"

"I'm not a fool," protested Silberberg, "and I shan't go in this weather—for any man!"

Virginia walked aboard, with a look of disdain—the bitterest cut of all. The winches drew back the leaves of the great roof to let out the Roc, and the surge of the outer air filled the garage with windy tumults. Silberberg, suddenly resolving to go, leaped to the gangplank; but the ship rocked, and the wind howled so alarmingly, and the pessimistic forecast of the pilot returned so to freeze his heart that he retreated to the platform, whining, threatening Shayne with the wrath of Federated Metals on "Change, whimpering like a whipped schoolboy."

Shayne, engrossed in the clearance of the ship, paid him no attention. The drawbridge roof dropped down; the Roc, huge, steely and majestic, went out of her vast nest, careening sharply against the wall as she sailed out; and under splendid management fell off before the weather, the sense of windiness ceasing as he caught step with the current. Her master felt free, and went in to exult with Mrs. Shayne. He was an exemplary husband.

The clouds consisted of an upper high stratum of plain, semi-transparent gray, apparently motionless, and a flying scud of broken masses, which swept the higher hills, and drove north directly into the face of a rising body of rounded masses advancing in the face of the wind. Shayne knew what these indications meant; but he suddenly gave orders to lay a course dead for Temagami in spite of the northwesterly wind back of those clouds. By waiting for the turn of the wind, they might have made New York; but every mile of nothing took them farther from the central "low," and into a larger circle of the huge whirl of the gale. The pilot knew that Temagami was out of the question, though the wind blew dead toward it—nay, because of that fact; for a high wind never blows straight, but always in a circle about the "low!"

So Shayne, violating the rules of weather to make sunshine within, was not surprised when told that they were approaching the line of reversal—the turn of the wind.

"Head against it," ordered Shayne, "and cross Lake Ontario before dark if you can."

"It looks more than we can face," said the pilot. "If it is, shall we run before it, and try for a Pennsylvania port?"

"Use your best judgment," said Shayne.

"Yes, sir," said the pilot, whose best judgment had been to stay housed. "And you may want to know, sir, there's some sort of craft astern, and overhauling us."

"The devil!" ejaculated Shayne. "I'll take a look at her."

The binoculars revealed an aeron-

ef perhaps five miles astern, with wide wings, in which he could see the shimmer of blades in rapid revolution. The exclusive rights of the Virginia, the singular swiftness and power of the flight of this aeronef and the shimmer in her wings assured Shayne that he was pursued by the machine which had wrecked his monopoly and established a new and more impregnable one, founded on the old and time-tried basic title to rulership, land lordism. Shayne gripped the glass and set his teeth. The hounds had been watching, then, to see him break their doubly-accursed injunction! They wanted to put him in jail. The shame of it! He, Finley Shayne, a fugitive—for selling God's free air, in his own ship! And the danger of it, too; for Canada and safety now looked utterly unattainable.

The mountains slipped from under them, and the farms and villages took their places on the moving concave of the earth, as the big ship made speed toward the Mohawk. The south wind fell, the houses and villages passed more leisurely, and the roar in the trees ceased. Entirely against his judgment, noting that the speed already made seemed to mean Toronto by sunset, Shayne's hope returned of success in this mad voyage against command and advice. If he could leave that sleuth-hound aeronef behind, or reach a foreign jurisdiction, he would be satisfied with ever so small and temporary a triumph. Thus mused Shayne; and even as he so thought, the Roc was struck by the opposing gale; a sudden hurricane smote her decks as her momentum drove her through the north wind; she turned before it; the great concave panorama below slowly reversed, and began paying off to the north as the vast aeronef drifted like bubble to the south, before the fiercest blow she had ever dared encounter. Canada was out of the question. The Roc was caught in the full sweep of a real gale. If it kept blowing south, she could ride it out, but they all knew that these winds pivot "counter-clockwise;" that the shift would be from northerly to westerly, and that the Atlantic's lee shore cut across their course. Anger and pique decreased; the sense of danger waxed—and he paced the steady deck, looked at the racing towns and rivers and hills, listened to the crescendo roar in the trees, and grew pale.

"If we reach an aerial harbor," said he, through the speaking-tube, "what do you think of trying a landing?"

"She'd rip to strings," said the pilot. "We'd be killed. I'd sooner try the rip-cord in a plowed field; some of us might get off with broken bones—that way."

"Oh, well," said Shayne, "we haven't come to that; and we're going along very comfortably."

"As yet we are, sir," said the pilot.

During luncheon Mrs. Shayne ventured a series of remarks on the tyranny of the courts.

One True Medicinal Whiskey

Beware of So-called Ones—Imitations

Unscrupulous dealers, mindful only of their profit and caring nothing for the health of their patrons, are offering for sale low grade mixtures, which they tell you are "as good as" Duffy's Pure Malt Whiskey.

Some go so far as to try to make you believe it is Duffy's Pure Malt Whiskey. These cheap concoctions are foisted on the people with the intent to deceive.

When a remedy has been before the public for more than half a century, has been prescribed and used by the best doctors and in prominent hospitals, and has carried the blessing of health into so many thousands of homes as Duffy's Pure Malt Whiskey has, imitations are bound to arise. They may imitate the bottle and label only—no one can imitate the contents.

Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain. Its palatability and its freedom from injurious substances render it so that it can be retained by the most sensitive stomach. It has been used with remarkable results in the treatment of consumption, pneumonia, grip, coughs, colds, malaria, fevers, stomach troubles and all wasting and diseased conditions.

It is sold in sealed bottles only. The Old Chemist's Head is on the label, and over the cork is an engraved seal. Be certain the seal is unbroken. Sold by druggists, grocers, dealers, or direct, \$1.00 a large bottle.

Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for doctor's advice and valuable medical booklet containing testimonials and common sense rules for health, both sent free.

WILL CLEAR THE RIVER OF SNAGS

Progressive League Intends to Make Black River Safe for Motor Boats and Skiffs

NEW OFFICERS ARE INSTALLED

President Marvin Outlines His Plans for the Work of the League for the Ensuing Year

If the present plans of the North Side Progressive league, which were discussed at the meeting last night, materialize, the numerous snags and piers in the Black river will soon be a thing of the past and narrow escapes from drowning in its waters will become fewer.

The plan as promulgated at the meeting last night, is to promote cooperation among the boat owners on the North side in an effort to secure the necessary funds and time to clear the river of obstacles to navigation. During the past few months several narrow escapes have been recorded, the boat men having run their craft onto snags and sunken piers or piers.

The meeting last night saw the installation of the new officers headed by President George B. Marvin, Jr. Each of the officers made a short speech appropriate for the occasion, and the president outlined the work for the following year.

Mr. Marvin told of the things that the league had accomplished and then branched out into what it should accomplish during this year. He urged that the residents of the North side help each other and that they be loyal to their own interests and purchase their necessities of life from North side merchants. He set the men to thinking when he urged that they make an attempt to secure a union station for the local railroads at Grand Crossing. He also urged that an attempt be made to persuade the ladies to organize an auxiliary league for the purpose of cleaning up the North side and especially ridding it of the numerous signs that make the many buildings in the business section so unattractive. An effort to keep minor boys out of saloons was also urged by the new president.

It is also probable that the league will bring pressure to bear on the new interurban railway company in an effort to persuade them to purchase right-of-way through the North side.

The president appointed a committee consisting of Messrs. Foster, Nelson and Dwyer to make an effort to secure lights for the new park as an assistance to navigation along that part of the North side.

The water question was again brought up and Messrs. LaVague, Spence and Tully were appointed as a committee to investigate this matter.

Tables arranged for the occasion and enjoyed the culinary pleasures prepared for them by the excellent management of the hotel. Following the banquet came toasts, the speakers being appropriately introduced by President Charles Grell, acting as toastmaster.

J. S. Earll spoke on "A Greater Prairie du Chien" outlining the improvements made here during recent years and pointing out good things for the future.

Father J. B. Theiss, S. J. of Sacred Heart College eloquently presented his subject, "The Marquette Monument," urging upon the city the opportunity for honoring itself in honoring the memory of a great man.

"The Benefits of a Business Men's Association to a city," was wittily and forcibly given by A. M. Laird, and "The Ladies" were toasted by Hon. L. H. Bancroft of Richland Center, who closed by giving "every man's sentiment."

"Of all the ladies in the world I know my wife's the best, But how could I be sure of this If I didn't know the rest?"

That the banquet was so pronounced a success is largely due to the cooperation between the banquet committee, Messrs. F. S. Clinton, J. H. Peacock and Louis Dousman and Manager Dan Mackin of the Dousman house, who has ably demonstrated the capacity of his hostelry for giving an excellent evening's entertainment to a large number of at the Dousman House Tuesday evening.

At eight o'clock one hundred and guests. Music was furnished during the evening by the Apollo orchestra. The annual band concert of the Sacred Heart College band will be given at the college May 29th in the afternoon.

The high school base ball nine went to lower town Wednesday afternoon to play a game with S. H. college nine, the latter winning the game by a score of 4 to 2.

The high school junior banquet for the senior class will be given on Friday evening at the residence of

IT SLUGS HARD

Coffee a Sure and Powerful Brainer

"Let your coffee slave be denied his cup at its appointed time! Headache—sick stomach—fatigue—like unto death. I know it all in myself, and have seen it in others. Strange that thinking, reasoning beings will persist in its use," says a Topeka, Kansas, man.

He says further that he did not begin drinking coffee until after he was twenty years old, and that slowly it began to poison him, and affect his hearing through his nervous system.

"Finally, I quit coffee and the conditions slowly disappeared, but one cold morning the smell of my wife's coffee was too much for me and I took a cup. Soon I was drinking my regular allowance, tearing down brain and nerves by the daily dose of the nefarious concoction.

"Later, I found my breath coming hard and frequent fits of nausea and then I was taken down with bilious fever.

"Common sense came to me and I quit coffee for good and went back to Postum. I at once began to gain and have had no returns of my bilious symptoms, headache, dizziness, vertigo.

"I now have health, bright thoughts, and added weight, where before there was invalidism, the blues, and a skeleton-like condition of the body.

"My brother quit coffee because of its effect on his health and now uses Postum. He could not stand the nervous strain while using coffee, but keeps well on Postum.

"Miss F., I know personally, was incapable of doing a day's work while she was using coffee. She quit it and took up Postum and is now well and has perfectly steady nerves."

THOUGHT SHE SAW THE COMET

Prominent North Side Woman Awakens Family to See It and Finds that it was the Moon

A prominent north side woman is today being joked by her friends and her husband especially, for mistaking the new moon for Halley's comet.

The woman happened to look out of the window about 10 o'clock last night and seeing a bright illumination in the sky thought it was the comet. As her husband had only that day expressed a wish to see the astronomical phenomenon she ran to his room and awakened him and the children, and in an excited breath told them how wondrous the comet was and how well it could be seen.

Mr. Hubby took just one peep out of the window and then rolled over in a spasm of laughter. After he had settled his tickled risibilities he gravely informed his somewhat offended spouse that the vision was not Halley's comet but the new moon.

The joke was too good to keep and Mr. Hubby told it to one of his wife's lady friends and today the joke is one at her expense.

SURVEY LACROSSE FOR TUBERCULOSIS

Dr. Edward Evans Announces State Agent of Board will Come if Given Encouragement

Dr. Edward Evans, addressing the supervisors this morning on the benefits of a tuberculosis hospital for the care of bad cases of the disease made the interesting announcement that officers of the state anti-tuberculosis association have offered to send to La Crosse Miss Gedney, formerly of Onalaska, to make a canvas of this city in the war on tuberculosis. She recently completed a similar survey of Milwaukee and the information obtained was valuable in the war on the disease. Dr. Evans said he had not yet asked to have the agent sent here, because there was no society or movement to co-operate, but that if the county board would put itself on record as favoring progress along this line this survey could be easily made and should prove of great value.

WAUSAU WINS A 13 INNING GAME

ROCHESTER, Minn., May 12. — Five thousand people saw Wausau win a heart-breaking thirteen-inning game yesterday from Rochester. Every business place in the city was closed in the afternoon. Three hundred automobiles and carriages, with the band, preceded the players to the park.

Former Mayor C. Stevenson delivered an eloquent address at the ball park.

McNeill, for Rochester, pitched magnificent ball for twelve innings and held the strong Wausau team to one score in the thirteen innings. Wausau scored two off Johnson, who relieved McNeill, and Wausau won the game by the score of 3 to 1.

Lakoff, for Wausau, pitched splendid ball, only two hits being made off him. The score:

S.S.S. CURES MALARIA

Malaria is a species of blood poverty known as anaemia. It is a condition in which the circulation is so weak and impure that it is unable to supply the system with sufficient nourishment and strength to preserve ordinary health.

The medical profession is divided in opinion as to the manner in which malarial poison gets into the blood. Some take the position that it is an atmospheric poison, the specific germs of which are breathed into the lungs and thus transmitted to the circulation. Others advance the opinion that persons become inoculated with the poison through the bites of mosquitos. All however agree that MALARIA is a blood affection, and any treatment to successfully overcome it must not only purify this vital fluid, but at the same time add the necessary qualities of richness and strength to the circulation.

The malarial poison destroys large numbers of the rich, red corpuscles of the circulation, and the peculiar paleness of anaemic persons is due to this fact. In the first stages of Malaria there is a bilious condition of the system, constant bodily weakness, poor appetite, and a "no account," tired feeling.

S. S. S. searches out and destroys every particle of malarial infection and builds the blood up to a healthy, nourishing condition. Then the system receives its required nutriment, the bright red corpuscles begin to multiply in the circulation, sallow complexions grow ruddy and flushed with health, the liver and digestion are righted, the appetite improved, and the system vitalized and refreshed in every way. S. S. S. is a safe and pleasant remedy as well as an efficient one. If you have Malaria we will be glad to have you write us describing the case. We will send free our book on the blood and at the same time our physicians will give you some medical advice that will be of great service to you in curing yourself with S. S. S. No charge for the book or advice.

A PHYSICAL WRECK.

During 1900 I was running a farm on the Mississippi River, and became so impregnated with malaria that for years afterwards I was a physical wreck. I took a number of medicines recommended as blood purifiers, chills, malarial fever, and malaria eradicators, but nothing did me any good until I began to use S. S. S., which I did about a year ago. The result was that after taking several bottles of the large size I was as well and strong as I ever was, and have never had a chill since. I expect to take S. S. S. every year as a preventive, and would advise everybody else to follow my example.

TEACHER OF WIERD "ORIENTAL MYSTERIES" HELD FOR TRIAL

NEW YORK.—Charged with abduction, Pierre A. Bernard, who was arrested Monday night in a sumptuously furnished house in West Seventy-fourth street near West End Avenue while he was instructing a scantily attired class of men and women in "mysteries of the Orient," was arraigned in the West Side police court yesterday morning and held in \$15,000 bail by Magistrate Breen. When arrested Bernard was standing on a glass globe, that was on a hair mattress in the center of the room. He was going through some peculiar motions and gyrations, as he stood on the globe. Five girls and several men, all in bathing suits, were gathered around him trying to repeat the movements. Miss Zelia Hopp, 18 years old, and Miss Gerhard Lee, 19 years old, the latter being taken from the Seventy-fourth street house at the time of Bernard's arrest, have made charges against him. Miss Hopp lives with her parents in the Bronx and Miss Lee's home is in Tacoma, Wash.

CONSCIENCE HURT HE PAID FOR WIRE

Christian Overgard Thought His Cow Stolen and Made a Fuss, But Makes Up Expense

Conscience stricken at having caused the county the expense of a telegram to Illinois when he thought his cow had been stolen and shipped to Chicago, Christian Overgard, a farmer living near Holmen, yesterday returned to Prosecutor James Thompson the cost of the telegram, having since found the animal dead under a hay stack.

Overgard came to La Crosse at the time the cow disappeared, and believing it had been shipped to the Chicago market had Mr. Thompson wire to an Illinois village marshal to examine the carload of stock when it reached his city. This was done without locating the cow, and the hunt for the criminal had stopp-

DR. EVANS ADDRESSES BOARD

Recommends County, Build
Tuberculosis Hospital
Near Poor Farm and
for Poor Only

The morning session of the county board of supervisors was marked by numerous requests for aid from the county in the building of roads and bridges.

Town of Barre asked for \$900 out of the county road and bridge fund of \$21,000 toward an \$1,800 steel bridge to replace the wooden structure known as Hempter bridge. Half the total cost will be borne by the county and half by the township. The town of Shelby asked \$500 as half of cost of improving the Mormon Coulee road west from where the work was completed by Wm. Hass. The town of Bangor \$700, Greenfield \$500, Burns \$1,200, Hamilton \$1,900 and Barre \$700 for road improvement.

The town of Farmington asked \$2,000 toward rebuilding the Waterloo bridge. The towns of Hamilton, Bangor and Burns asked \$2,000, \$600 and \$1,100 respectively for bridge construction. The petitions were referred to the committees on roads and bridges and ways and means.

Protect Poor Farm
Application was made for \$200 to dredge the creek and build up the dyke to prevent the poor farm from overflowing.

Ask New Bids
The grounds and buildings committee recommended they be instructed to advertise for new bids for the drinking water system in the court house, as previous bids were too high and were rejected.

Petition to Divide Town
A petition was presented for a division of the town of Farmington and was made a special order of business for 2 p. m.

Poor Farm Improvement
The committee on poor and insane recommended a new electric lighting system and water pumping system at the poor farm as the present lighting system is defective and there is unsatisfactory fire protection. Supervisor Hulberg believed the present system could be repaired which was concurred in by Supervisor Baker. The estimated cost of 1,500 for the new plant includes a gasoline engine, a dynamo for lighting, a tank with air pressure for fire protection, a washing machine for the laundry. The cost of installation would be \$6.00 per day. Supervisor Kindley thought a special committee should be named to arrange to establish the lighting and heating systems in a separate building. The discussion was put over to 3 p. m.

Tuberculosis Hospital
The report of the special tuberculosis committee was amended to provide for a hospital in a location other than at the poor farm.

Chairman Davis favored the continuation of investigation by the committee and indicated favor of building the tuberculosis hospital.

Dr. Edward Evans was asked to speak and declared he would like to see the board build the hospital voluntarily, as he believed it would be a matter of necessity. The prevention of the disease is the object and handling the poor and careless consumptive is the means of stamping out the plague. Dr. Evans considered the hospital more important than road improvement, and advised the board to go on record in favor of a progressive policy in this direction.

At Poor Farm
Dr. Evans thought it would be best to build the hospital cheaply adjacent to the poor farm in order to utilize the management, heat, light, food and convenience of the other institution. Dr. Evans thought it unwise for the county to attempt the care of any but pauper and semi-pauper cases.

The committee report was adopted and the investigation will continue through the special committee.

Addition to School
Application was made to divert \$2,000 asked to build a barn at the County Agricultural school, and that the money be appropriated to build an addition to a wing of the building, which will accommodate the blacksmith shop. The building of the barn will be put over a year.

McGillivray Bridge Again
The board during the afternoon will consider repairs wanted at the McGillivray bridge, which has been a spectre on the board's sessions for years. The bridge is in need of repairs, but the town of Caledonia in Trempealeau, with which the bridge connects refuses to join with La Crosse county to make the repairs.

Card Index System
A resolution for a card index system in the office of clerk of the circuit court to include cases after 1907 was referred to the ways and means committee.

Dunn Ballot
Moncena Dunn, inventor of the coupon ballot addressed the board at 2 o'clock this afternoon. He guarantees ballots can be printed for \$18.00 per thousand and that enough to supply the election can be printed for \$180.00.

NEXT CONVENTION TO BE HELD HERE

Knights of Columbus of the
State Decide to Meet
in La Crosse in
1911

La Crosse will entertain the next state convention of the Knights of Columbus in 1911. This was the decision reached before the close of the ninth annual convention of the organization at Ashland yesterday afternoon. The invitation was extended by A. H. Schubert and others who attended the gathering. The Knights of Columbus held large conventions and the meeting in this city next year promises to be largely attended.

The newly elected officers are: State deputy, Dr. T. L. Harrington, Milwaukee; secretary, W. B. McGuire, Baraboo; treasurer, D. A. Krembs, Merrill; advocate, Judge J. A. Anderson, Chippewa Falls; warden, O. J. Kramer, Fond du Lac; delegates to national convention at Quebec, E. L. Kelly of Manitowoc, and J. F. Martin of Green Bay, alternates, F. S. Dhooze of Ashland, A. A. Ritz of Milwaukee, C. Yockey of Milwaukee, and A. H. Schubert of La Crosse.

CORD WOOD IS NOT MUTTON, HE THINKS

CHICAGO, May 12.—Cord wood is not mutton, according to the interpretation of John Kjellander, city sealer, today in ordering twenty suits start against Chicago packers. Kjellander objects to the packers forcing butchers to pay high prices for big skewers used in holding lamb and mutton carcasses open and he had figured it out that the packers profit \$614606.22 1-2 a year by including the weight of the skewers in the weight of the carcasses.

Kjellander's suits are against Armour and Company, Swift and Company, Anglo-American Packing Co., Libby McNeill and Libby, Schwarzschild and Salzburger and the Hammond Packing Company.

FAIRBANKS HAS NOT HEARD OF IT

INDIANAPOLIS, Ind., May 12.—Former Vice President Charles W. Fairbanks here today says he had received no communication from President Taft offering him an ambassadorship to the court of St. James. When apprised of such a report from Washington, Fairbanks asserted:

"This is my first intimation of such a preference by President Taft. I have received no letter or message from the president bearing on this subject."

When asked if he would accept such an offer, Fairbanks declined to answer.

REPUBLICANS ARE DRAGGED INTO IT

CHICAGO, May 12.—Republicans who voted for Wm. Lorimer for United States senator for the first time were brought into the legislative bribery investigation today when Representative Charles F. Black of Mapleton, appeared in response to a subpoena. Black started out a supporter of A. J. Hopkins and switched to Lorimer. Reports continue to be circulated that the grand jury is debating the indictment of another member of the legislature whose name has not been mentioned so far.

POSSE HAS JAP

LOVELAND, Colo., May 12.—A Japanese believed to be Genkyo Mitsunaga suspected of the murder of Mrs. Katherine Wilson at Denver, was captured in the hills near here today by a posse of the officers by jumping from a rapidly moving automobile. He is surrounded in a forest by a sheriff's posse.

ROB STREET CAR

SEATTLE, Wash., May 12.—Three unmasked men today held up a pay-as-you-enter street car on the South Park line, took \$2,000 in cash and jewelry from the crew and passengers, running the car into the suburbs and disappeared into the freight yards. A posse has started in pursuit.

Expert Watch Repairs

Eighteen months is the extreme time which should be allowed between the cleaning of a watch. In that time the best of oil dries and the work of overcoming friction, together with accumulating dust, wears out the delicate machinery and impairs its usefulness permanently.

Do not wait until your watch begins to lose time before you have it examined. Let us overhaul it for you. All work guaranteed.

THIS WOULD END PRIZE FIGHT GAME

WASHINGTON, D. C., May 12.—A bill was introduced into the house today which, if passed, would practically prevent the Jeffries-Johnson fight, by prohibiting them interstate transmission of prize fight pictures or prize fight reports.

Representative Walter Smith of Iowa presented the measure.

One of the main features of the fight is the value set upon the moving pictures.

SHE'LL USE HER NAME AND WEAR TIGHTS

NEW YORK, May 12.—"I can use my legal name anyway I please and if managers insist on giving me 'tight' parts, why, I shall wear them, that is all," declared Mrs. J. Raynor Storrs Wells, daughter-in-law of the noted society leader, Mrs. Wm. Storrs Wells, today.

Mrs. Wells, the younger, was plainly angered by the report that if she resumed the stage under her wedded name instead of the one she formerly used—Irene Bishop—her mother-in-law would ask the court to enjoin her.

LITTLE AID COMES FOR QUAKE VICTIMS

WASHINGTON, D. C., May 12.—Despite the appeal of President Taft to the American public for contributions for the aid of the earthquake sufferers in Costa Rica, money is coming in so slowly that it seems as if the disaster has been overlooked.

So far, the Red Cross has only \$26 in addition to \$1,000 sent by the mayor of New Orleans. District officials of the society have not yet reported.

Two hundred tents were provided by the navy for sheltering some of the homeless and these will be issued at once, from the marine stores on the Isthmus of Panama. The Red Cross will reimburse the department if congress fails to make provision.

R. I. GETS WABASH

NEW YORK, May 12.—Railroad circles today credit a report circulated in Wall street that the Reid-Moore and Pearson interests, which dominate Rock Island, have acquired control of the Wabash system and that it will be used as the connecting link between the Rock Island and the Lehigh Valley. None of the officials concerned would discuss the report.

FRISCO FIGHTS FOR IT

WASHINGTON, D. C., May 12.—"San Francisco in 1915," was the slogan of the Californians who appeared before the house foreign affairs committee today to urge that the government give official recognition to San Francisco as the place of the Panama-Pacific exposition.

MINNEAPOLIS LOSES

SPRINGFIELD, Ill., May 12.—The National Retail Grocers in convention here this afternoon turned down both Minneapolis and Oklahoma City, who have been leading in the fight for the next convention and selected Denver for the next meeting.

supreme court of the United States upholding his appearance in the presentation of a land claim against the United States within two years after he was commissioner of the land office.

The decision held that the law prohibiting such appearance applied only to "money claims."

Though Wickersham has already been called upon by the committee for all papers used by him in his "summary" and replied that he had included all of them in the same document published at the beginning of the investigation, a second call was sent him today for the Lawler memorandum.

Lawler's letter to the committee today stated that he had submitted this to the attorney general.

Following today's development, Brandeis told Chairman Nelson that he wished to let his case rest until the Lawler paper was produced.

Attorney Pepper then took up the cross examination of Secretary Ballinger on behalf of Gifford Pinchot. He first questioned Ballinger concerning his knowledge of forest service matters "to see just how well Ballinger's criticism of Pinchot was based."

FIGHT OPPOSITION ALARMS FIGHTERS

NEW YORK, May 12.—Jem Driscoll, the English featherweight champion, who is to meet Abe Attell in a 45 round fight in California on July 2, two days before the Jeffries-Johnson mill, is worried over the action of the officials of the San Mateo county in refusing to allow Papke and Thomas to fight in Colma Saturday.

Attell and Driscoll were to have fought in Colma, too.

The Papke-Thomas bout has been transferred to the Dreamland rink, San Francisco, and cut to 20 rounds from 25. Driscoll is anxious to know where his battle with Attell will be fought, and if it is to be a short go instead of the full route.

ENGINEERS GET DOWN TO BUSINESS

DETROIT, Mich., May 12.—Nine hundred accredited delegates to the biennial convention of the Brotherhood of Locomotive Engineers met today in the first business session of the month of meetings. Two sessions will be held daily at which, in secret, a mass of routine business is to be threshed out. It is stated a great deal of attention will be given to the insurance end of the brotherhood.

Regret was expressed that Samuel Gompers, P. H. Morrissey and Congressman Townsend were unable to be present at the big reception but they all telegraphed regrets.

VOTE TOMORROW

WASHINGTON, D. C., May 12.—An agreement reached in the senate today during the debate on the railroad bill provided that the various long and short haul provisions now before the senate shall be voted on beginning at four o'clock tomorrow afternoon.

During today's debate Senators Dooliver, Cummins, Clapp and Smoot supported the Dixon long and short haul amendment.

FIRES STILL ARE MENACING TOWNS

Michigan and Minnesota
Peril Not Diminished,
but Wisconsin Has
Found Relief

DULUTH, Minn., May 12.—Reports this morning indicate that the forest fires which have been raging in the districts of St. Louis, Cook and Lake counties for the past week, have not abated.

Wireless messages from Grand Marais this morning say the wind which died down last evening, has again risen and that the town is in grave danger of total destruction.

Captain Hector, of the steamer America now at Grand Marais, sent word that the towns of Tofte, Lutzen and Rosebush were entirely wiped out. The Chippewa was about half destroyed. All are small settlements on the lake shore in the neighborhood of Grand Marais.

There are more than 200 towns and settlements between Duluth and the fire boundary. A dispatch from Two Harbors says that the timber country northeast of the town is burning fiercely and that hundreds of thousands of feet of the finest pine are doomed.

The sawmills at Silver Creek were wiped out yesterday and settlers and fishermen at Split Rock and vicinity have lost everything. The fires have consumed practically all the winter cut of ties.

The Wisconsin fire area about Mosinee seems to be safer and the loss there was less than reported.

Refugees Singed
Refugees from the settlements around Grand Marais which have been destroyed by the forest fires are flocking into the village. One party arrived this morning, bare-headed and with their clothing and hair scorched. Some of them had spent the night in the bed of a stream, being cut off by the fire which destroyed the landings of the Schroeder-Lumber Company and the Murphy Brothers.

Lutzen, which was reported burned last night, is claimed this morning to be safe. Rosebush is said to be destroyed and Tofte which was partially burned is said to be a complete loss.

TERRIBLE FATE OF RIVER VESSEL

ed completely around. Then came the noise of tearing timbers, the shrieks of the crew and passengers, and the vessel struck a rock almost within reach of land. She careened quickly and sank in twenty feet of water. Many of the passengers were in their berths and awakened to find water rushing in the doors. The boat sank with amazing rapidity and this morning only the upper or "Texas" deck was above water.

Some are Saved

Captain Crane and the crew immediately realized there was no hope of saving the boat. So close were they to the shore that an attempt was made to throw out a gang plank. Many jumped overboard and some were rescued by men of the crew or passengers. Others never came up.

The plan of lowering the gang plank failed as the trees along the shore prevented the plank from reaching the ground, the water being high and the shrubbery that is usually along the bank being submerged. This brought the trees down to the water's edge.

As the men struggled with the gang plank it became entangled in the trees and in spite of the efforts of the men on the boat to restrain some of the panic-stricken passengers they rushed out on the plank which was elevated at an angle of 50 degrees.

Mrs. Wm. Hawkes, one of the survivors, of the Nashville, Tenn., party, in telling of this today, said:

"The crew reassured us and told us that if we would take our time all might be saved. Otherwise, they said, we would all drown. I did not go on the gang plank but many of the women did. Among them was Mrs. Patterson, clasping her two year old child in her arms. So far as I can remember all of the women now known to be drowned were on the gang plank. Mrs. Patterson went down with her son in her arms."

Women Go Down
"All this time the boat had been steadily sinking. Suddenly it careened and seemed to almost turn turtle. The women were on the gang plank then. It gave a twist and all were thrown in the water and drowned in the swirling current. Of the women on the plank, Miss Louise Rhea and Miss Frances Harris were the only ones to get ashore alive. These two were of our party. After the boat settled down many of us were rescued by members of the crew and some caught pieces of wreckage and driftwood to support them."

YEOMEN ENJOY A SOCIAL EVENING

The Yeomen of America had a very enthusiastic meeting last night, there being an unusually large attendance. After the business had been dispensed with the members enjoyed themselves the remainder of the evening with cards, progressive cinch being the game chosen. The first ladies' prize was won by Mrs. Wm. Moews, the second by Mrs. John Wiggert; the first gentlemen's prize by Alfonso Tucker, the second by Herman Buelow. All those present report an unusually good time.

It's easy for a man to write a long love letter to a woman—if he isn't married to her.

It doesn't require very much encouragement for any man to make love—to himself.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, she is in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

ENGLISH PROFIT BY DEATH OF KING

LONDON, May 12.—The erection of reviewing stands along the route from Westminster hall to Paddington station, the line of the funeral procession of King Edward, began today.

The English public in its grief has not lost sight of the financial gain to be made from this pageant. Realizing that the event will bring together the greatest array of royalty ever seen, it is only fitting, one says, that the charge be commensurate. The cheapest seat on the review-

ing stands will sell for \$5 and from this they will run to \$50 and possibly \$75. House owners along the route have already sold window space to spectators for \$500 and one balcony brought \$600. Even these prices are likely to be raised as the day of the funeral, May 20 approaches.

MAYOR PITCHES FIRST BALL

Land President John Elliott
Catches It; Connell
Hits in the Win-
ning Score

Two bases on balls, a double and three singles injected in the last moments of the game yesterday won for the Outcasts by a score of 8 to 3. The Commissioners from Eau Claire had dropped the initial contest of the season.

The season started auspiciously, Dame Fortune smiling on the local team in the closing moments of a game which looked good for extra innings.

Band in Parade
Promptly at noon Andre-Kreutz band gathered on the down town streets to tear off big chunks of harmony and await the coming of the ball players. The Eau Claire and the La Crosse teams gathered at the market square, marched down Pearl street and after covering the principal thoroughfares in the down town business section, took cars to the League park where they began the preliminary work to the opening of the season.

Judge Brindley made the opening speech of the baseball season. He said in part: "I feel just like the young man who was asked to make a speech at his wedding supper. The young man, arising and putting his hand on his bride's shoulder said, 'This thing has been forced on me.'"

"Now this speech has been forced on me. I didn't come out to make a speech."

In closing he hoped that La Crosse would win the pennant and that the Eau Claire team could win second place in the percentage column. He then announced that Mayor Sorenson would pitch the first ball and that President Elliott would catch it, that is he would try to catch it.

The officials then performed their share of it. The mayor heaved the ball after a fashion that reminded the old timers of Amos Russe. Straight and true it sailed over the plate into the waiting mitt of Mr. Elliott. The league president caught it too, without an effort.

Fine Spirit Displayed
The spirit of the large crowd was the best. There was a noticeable lack of "hammer work" and it is the general feeling among the fans that the team is the best that has represented the city in a number of years. All feel reasonably sure that the local team will at least be fighting it out for the flag at the end of the season.

The large crowd, there was about 1,500 present, indicates that an awakening spirit towards organized ball is in evidence. The local officials now feel sure that the fans will keep on coming to the games every day and that when the final summing up comes at the end of the season, La Crosse will be near the head of the column in attendance.

Everything points to a highly successful season everywhere. In the four opening cities, the crowds were so large that they taxed the seating capacities of the stands. It was a grand opening in every city of the league and while every team could not win, they feel that the Minnesota-Wisconsin league has had an auspicious and a successful start.

The Game
The locals annexed the first run in round one but the Commissioners tied it up in the fourth. Each team added another count in the fifth and sixth rounds after which it was a tied up contest until the momentous eighth when the Outcasts thought that they had better win out. The game was fast and furious until the eighth and looked good for extra rounds without a doubt. Traggesser the first man up flied out to the catcher. Then Morrow seemed to lose his eye, or was it a Willbur Wright ascension? Anyhow the

stuff was off. He couldn't locate the plate and walked Schriner and Whittaker.

"Biddy" Connell connected with one of Morrow's salivated dope balls

poling it to left field and before lit-

tie Danny Dick could return it, Schriner and "Bots" had counted the winning runs. Ward, who had previously connected for three bases, flied out to Moore who made a bad peg to Schoonhoven in an attempt to catch Connell at second. The ball went into deep right field and "Biddy" scored. But this wasn't all by any means. Klein hit to right field and Safford's war club met the pill right on the nose for a drive down the first base line and Eddie scored on a passed ball by Benrud. Kuehn made an instantaneous hit with the fans, poling out a beautiful two bag drive up against the boards in the sun garden but Danny Dick returned it quickly and Kuehn got but two bases on it. Doll put an end to the spasm of fright in which the few Eau Claire fans had been plunged and flied out to Schoonhoven.

Eau Claire could do nothing in the ninth. It was one, two and three. Carter flied to Safford, Schoonhoven grounded out to Doll and Benrud ended the game by popping to Schriner.

Safford was the hitting star of the game getting three hits in all. He also accepted three difficult chances in center field without a slip. Whittaker poled out a neat three-bagger in the sixth, the pill bouncing against the timber in right field. It brought in a run. The box score:

PROTEST WITHDRAWN

PITTSBURG, Pa., May 12.—Brooklyn's protest of Monday's game with the Pirates has been withdrawn, according to a statement today. Manager DaBrien of the Dodgers, filed the protest but when President Chas. Ebbetts arrived here, enroute to Cincinnati, and heard of the affair he at once instructed his manager to withdraw the charge.

Score of 4 to 3

NEW YORK, May 12.—The Detroit Americans were helpless before Russell Ford's shooting yesterday and the Yankees won easily, 2 to 0. The Highlanders gave a brilliant exhibition of fielding. All the good news came in the seventh. Laporte beat out a scratch hit, Roach bunted, Summers fielding the ball and whacking him on the back. Laporte took second on the error. Channell beat out a bunt, filling the sacks. Austin's fly was easy for Dave Jones, but Laporte came in on it. Roach died stealing. Sweeney's two-bagger sent in Channell. Score: R. H. E.

Boston 10, St. Louis 3
BOSTON, May 12.—The Red Sox had on their batting togs winning from St. Louis, 10 to 3. The further it went the more hits they got. Bailey was pounded out Peltz taking his place without improvement. Three errors by the visitors also helped. Smith pitched steady ball throughout. Score: R. H. E.

Chicago 4, New York 3
CHICAGO, May 12.—The Cubs took the third straight game from the Giants, 4 to 3, chewing \$10,999.95 of beauty out of the wry-necked, cross eyed and left-handed fifth inning. In this stanza they drove Marquard off the slab after scoring three runs. Kroh was weak with runners on bases and only the fact that the Cubs slashed at Marquard's wry-necked slants all the way enabled them to win. Score: R. H. E.

EASTERN RACING
SEASON TOMORROW
NEW YORK, May 12.—The real racing season will open at Belmont Park tomorrow. The first \$5,000 handicap of the year, the Metropolitan, at one mile, will be the chief attraction. Officials are hopeful that the weather will clear today so that the track will have time to dry.

There will be a high class field. James R. Keene's great mare Maskette, who turned a mile in 1:41 2-5 yesterday, with weight up, appears a certain starter. She will go to the post favorite. Sam Hildreth will furnish the second choice, in a coupled entry of not less than three starters, King James, Restigouche, and Dalmatian, with Firestone a possibility in place of King James, if the track is heavy. Fitzherbert, 3 year old of last year and one of the best horses ever raced, will carry the cherry and white of John E. Madden. August Belmont's colors will be carried by Priscillian, who raced unsuccessfully in England last year. If the president of the jockey club sends another to the post it will be the speedy Field Mouse who won her first out as a two year old, with odds of 100 to 1 against her. The Oneck stable will be represented by Fashion Plate, who won a good race yesterday. Beauport will carry the old gold of R. T. Wilson, Jr. Frank Nolan will start the Sanford Bred.

TRACK MEET TO
BE A HUMMER

The interstate track meet to be held on May 21 at the fair grounds promises to be the best one ever held here. Invitations have been sent to all the important schools in this and neighboring states and all are replying favorably. The management has done everything possible to make it a success and from indications it will be a fine one. Some fine medals are to be given, first place to receive a gold, second a silver and third a bronze. Considerable expense is being incurred in the purchase of the medals and the renting of the fair grounds, so it will be necessary to get a good crowd in order to meet expenses.

A committee to take charge of the High School Track Dance to be held on May 21, the night of the interstate meet, will be appointed soon.

Well we stowed the first one away all right. Now let's make it three straight. Oh, you rabbit's foot!

The team was presented with a beautiful banner before the game yesterday by the William Doerflinger company.

Tomorrow will be the first lady's day of the season. Every fair fan will be admitted free of charge and a number of them are expected to turn out.

Joe Safford had a perfect batting average yesterday, getting on base every time. He made three hits in three times up. Good work Joe.

Callahan, playing center field for the Commissioners, is a fast man on the bases and a good sticker. He got two hits yesterday and the way he

stole around the sacks was a sensation.

"Bots" Whittaker pitched a game all the way, allowing but scattering hits which is pretty good for the first game, eh?

Ward, our new first baseman, made a favorable impression with the fans in the manner in which he died himself in his position and the way in which he connected for the three base wallop in the first round. It was a beauty, going way up to the fence.

"Slats" Morrow evidently had an off day yesterday. It is seldom he takes that sort of an aerial hit anyway to the extent of walking the men in succession. But then the will happen to the best of them.

BREWERS DEFEATED
BY INDIANAPOLIS

MILWAUKEE, May 12.—Indianapolis gathered 17 hits off the deliveries of Stoney McGlynn and Short, winning the game easily by a score of 11 to 7. Two triples and four two baggers were made in the game. Indianapolis used two pitchers who allowed 13 hits. The score:

M'GRAW'S LOSING
STREAK KNOCKED

NEW YORK, May 13.—The New York Giants' three straight defeats in Chicago have resulted in one of the nicest little hammerfests ever head in New York. McGraw is being "panned" for failure to pitch Young Drucke at the start of a game. Drucke has taken part in nearly half a dozen games this season and has not been scored against. He has shown himself possessed of a larger pitching "stock" than any man McGraw has, save Mathewson, and yet McGraw lets him trail in behind.

The board of public works has issued 3,000 free bridge passes up to date.

It isn't difficult to love your neighbor's money as your own.

ZBYSZKO DEMANDS
POLISH REFEREE

CHICAGO, May 13.—Stanislaw Zbyszko, the giant Polish wrestler, sprung a new one today on Frank Gotch, whom he will meet here on May 30 for a \$25,000 purse and the world's heavyweight wrestling championship. Zbyszko insists on a Polish referee. Zbyszko's manager, J. J. Herman, telegraphed the Empire C. today that inasmuch as the fight had deferred to Gotch in everything else, even conceding the Iowa \$2,500 of the purse, win, lose or draw he did not propose to take chances with the referee and would demand that he be allowed to name the third man. The managers of the fight fear Gotch may object strenuously enough to jeopardize the match.

THE DAILY MARKETS

QUIET PREVAILS ON MARKET TODAY

There were no changes of importance on the local markets this morning, prices in most commodities being inactive. Green vegetables still retain the former prices, there being a scarcity of home grown stuff. Butter prices continue high and eggs also are unchanged.

FOREIGN MARKETS

New York Stocks

NEW YORK, May 12.—Pennsylvania was unusually prominent at the opening of the stock market today and opened up one point higher. The rest of the list generally started at fractional declines, but at the end of fifteen minutes a strong tone developed, prices moving above yesterday's close.

11 a. m.—Nearly all the speculative interest in the market during the morning centered in Pennsylvania which continued strong. Trading in the rest of the list was small.

Government bonds unchanged; others firm.

Noon—Price movements in the general list were to lower figures in the last half of the forenoon. In the early afternoon the market was generally sagging.

The stock market closed strong.

25 full bolts of Cheney Bros. Foulard Silks, in the best of 1910 colors and patterns, direct from the manufacturers; Foulards that always retail at \$1.25 yd. Because of a lucky purchase, we will sell Friday, at the yard

79c

There never has been a season when Foulard Silks were in such great demand among well-dressed people, but \$1.25 a yard, the regular price of Cheney Bros. Foulards, was a trifle more than many women cared to pay for a Foulard Dress, hence the cheaper Foulards regularly priced at 79c and 89c a yard have had the largest sale, although oftentimes a woman in buying them took a last year's pattern to secure the low price.

We guarantee these to be Cheney Bros. Foulard Silks, and we guarantee every pattern to be 1910—the entire 25 pieces.

REV. BUTTERS STILL CRITICALLY ILL

VIROQUA, Wis., May 12.—Dr. C. W. Porter is "doing" Europe alone, leaving Rev. C. E. Butters

in the hospital at Cairo. He is very weak, and it is feared the journey home will be almost too much for him. His condition has really been very serious, during the time he was in the most critical condition it was found necessary to inject

salt into his body, which is a last resort of physicians.

When a man first joins a lodge he is very enthusiastic, but when the first assessment becomes due he begins to take less interest.

GUARANTEE FUND FOR NEW COACH

High School Athletic Association Holds Meeting and Makes Arrangements

The athletic association of the high school met yesterday afternoon to hear the reports of the committees. Chas. Hyde was elected secretary in the absence of George Walker, who has left school.

A guaranty fund for Jack Wilce, who is to coach the athletic teams of the high school next year, will be secured. On account of the poor condition of the baseball grounds at the high school, a request will be made that they be fixed.

There was considerable discussion over the question of monograms for the baseball players, it being claimed that baseball is a minor sport in high school, and that a baseball man is not entitled to the same kind of a monogram as a football man. Some wanted to change the number of games necessary to win the letter, others favored a different letter. The matter was finally left to a committee composed of A. Olsen, E. Chamberlain and R. Schlabach, who will report their decision at the next meeting.

SPARTA PASTOR TO GO TO GRAND FORKS

SPARTA, Wis., May 12.—Rev. F. W. Walker Pugh has accepted the call tendered him by the First Baptist church of Grand Forks, N. D., and has handed in his resignation as pastor of the federated Baptist and Congregational churches of this city to take effect June 1.

In accepting the new pastorate, Rev. Pugh will have charge of a congregation of some 1,000 members in a city of 25,000 inhabitants, and although the local church goes regret to lose their pastor, they rejoice with him in securing his new field.

Rev. Pugh started his ministerial duties in Sparta as pastor of the First Baptist church four years and a half ago. About two years ago the Congregational and Baptist churches united and he has acted as pastor over the two congregations since.

Observe Memorial Day.

Memorial day will be observed in Sparta as usual this year with addresses by Revs. Pugh and McCutchen. In the morning the exercises will be in the West cemetery, Rev. McCutchen delivering the address. In the afternoon the G. A. R. Ladies' Auxiliary, company L and the school children will march to Woodlawn cemetery, where Rev. Pugh will address the assembly. After his address the usual services will be held at the soldiers' monument in North park.

The annual memorial sermon will be preached by Rev. Brenner in the Methodist church Sunday, May 29, and the patriotic concert will be in the Congregational church that evening.

Greek Workman Injured.

A Greek laborer employed by the C. M. & St. P. railroad on their double track work was badly injured while trying to jump off a moving train at the Sparta depot. He fell, striking his head and was found unconscious. He was taken to the City hospital, where it was found that he was internally injured besides receiving a bad wound. He will probably recover.

Frank Delle, Jr., of Cashton, was arraigned before Justice Shoitto on the charge of assault with intent to do great bodily harm, committed on the person of his wife, who swore out the warrant against him. The hearing was set for Friday afternoon. In default of furnishing a bond of \$500 he was remanded to jail to await hearing.

Mrs. Geo. Brown, who was taken to the Mendota hospital for the insane, died there the next day and the remains were brought to Angelo for burial. Mrs. Brown was 35 years of age and is survived by eight children besides her husband. The funeral was conducted from the Angelo church by Rev. L. A. Brenner.

Shooting Affray Averted.

What might have been a serious shooting affair was narrowly averted at the famous resort known as "Monkey's Roost," which is near Little Falls. A man who was seriously intoxicated pulled a gun on his companion during a quarrel and threatened to shoot. A bystander stepped between the two asking to see the revolver and how much he would have to give to buy the revolver. In the meantime the man who was in danger of his life felt the premises and the bystander purchased the gun for \$3.50.

Bankers to Convene.

Group Seven of the Bankers' association will hold their annual convention in this city next week Wednesday. A fine program has been arranged by the local bankers' committee consisting of an afternoon program of addresses in the court house, followed by an auto ride and later a banquet in the Hotel Lewis. There are fifty-four banks in Vernon, Monroe, La Crosse, Jackson and Trempealeau counties in Group Seven, and it is expected that delegates will be sent from each bank in the group.

Sparta Briefs.

Dr. Paul Curran of Melrose was in attendance at the outing of the Wisconsin dentists at Sparta Tuesday.

Mr. and Mrs. A. L. Krump of Kendall, Mr. and Mrs. M. H. Wagner, Dr. and Mrs. W. B. Ford of Wilton, and Mr. and Mrs. Brown of Norwalk entertained the Eastern Stars last Friday evening after the initiation of Mrs. F. W. Swingle. Refreshments were served and a so-
